

SUBJECT INDEX TO VOLUME 24 (1985)—ONCOLOGY

Experimental oncology

- Effect of the radioprotector WR 2771 on the response of metastatic Lewis lung carcinoma colonies to alkylating agents 259
- Effect of reduced perfusion pressure and acetylcholine on local blood flow in tumors in the rat kidney 285
- Cycling S-phase cells in animal and spontaneous tumors—I—Comparison of the BrdUrd and 3H-thymidine techniques and flow cytometry for the estimation of S-phase frequency 545

Experimental radiation biology

- Irradiation induced cell death as related to cell cycle 87
- Investigations of ⁹⁰Sr in dogs—I—Pathogenesis of radiation-induced bone tumors 95
- Interactions of radiation and cancer chemotherapeutic drugs in a C3H mouse mammary carcinoma 181
- Influence of catalase on the radiation sensitizing effect of misonidazole 189
- Increased protective effect of cystamine and mexamine against radiation after activation of the haemopoiesis by dextran sulphate in mice 193
- Stimulatory effect of intermittent feeding on hemopoietic recovery in sublethally gamma-irradiated mice 199
- Relation between number of hemopoietic stem cells in newborn mice and their radiosensitivity 263
- Protective effect of selenium against ionizing radiation-induced malformations in mice 267
- Orgotein as a radioprotector in normal tissues—Experiments on mouse skin and a murine adenocarcinoma 273
- Comparison between the immediate effects of photon and electron radiation on the ciliary activity of the trachea of the rabbit—An in vitro investigation 279
- Quantitative changes in the goblet cells of the rat small intestine after irradiation 291
- Dynamics of irradiation injury to bone tissue—A vital microscopic investigation 343
- Glucose analogues alter the response of CHO-K1 cells to gamma irradiation 351
- Intermittent feeding as a factor enhancing hemopoietic stem cell proliferation and spleen colony formation in irradiated mice 357
- Long term effects of ionizing radiation on mouse spermatogenesis 363
- Effect of repeat irradiation on the tracheal ciliary cell activity 369
- RNA and protein synthesis of irradiated Ehrlich ascites tumour cells—I—In vivo investigation related to the cell cycle 375
- The protective effect of intra-arterial vasopressin injections on the small bowel during fractionated abdominal irradiation—A study in pigs 401
- Radiation sensitivity of human malignant lymphocytes 411

- Protection against radiation induced chromosome injury by sulfhydryl compounds 419
- Chemical modification of adrenal response to external whole body irradiation in mice 427
- Dose-response studies of single dose ionizing radiation on the ciliated epithelium of the trachea of the rabbit—A physiologic and ultrastructural investigation 433
- Response of rat brain tissue for the extraction of ¹²⁵I antipyrine after single and fractionated roentgen ray doses—A comparison of fractionated models applied to the central nervous system 445
- Effects of irradiation and inhibition of adenosine diphosphate ribosyl transferase in radiation sensitive and resistant mouse lymphoma (L5178Y) cells 451
- Effects of dietary supplementation with selenomethionine on the teratogenic effect of ionizing radiation in mice 459
- Quantitative evaluation of spontaneous and radiation-induced polyploidisation processes in human and murine testes 503
- RNA and protein synthesis of irradiated Ehrlich ascites tumour cells—II—Amount of m-RNA and in vitro investigations 549
- Influence of pancreatic secretion on late radiation enteropathy in the rat 555

Epidemiology and etiology

- Relation between tumour size and plasma prolactin levels in premenopausal patients with breast carcinoma—A preliminary report 57
- Cohort study of the long-term effect of irradiation for carcinoma of the uterine cervix—Second primary malignancies in the pelvic organs in women irradiated for cervical carcinoma at Radiumhemmet 1914–1965 145
- Comparison between diagnoses in the Stockholm Regional Cancer Register and certified underlying causes of death 219
- Validity of certified causes of death in breast carcinoma patients 385

Pathology

- Invasive squamous cell carcinoma of the uterine cervix—VIII—Survival and malignancy grading in patients treated by irradiation in Lund 1969–1970 41
- Investigations of ⁹⁰Sr in dogs—I—Pathogenesis of radiation-induced bone tumors 95
- Invasive squamous cell carcinoma of the uterine cervix—IX—Construction of a partial index in a histopathologic malignancy grading system 133
- Use of formalin fixed, paraffin embedded tumours for estimation of cellular DNA content and S-phase fraction by static cytofluorometry 537

Clinical oncology*Diagnostics, Symptomatology*

- Effects of repeated mammographic screening on breast cancer stage distribution—Results from a randomised study of 92934 women in a Swedish county 465
- Detection of neoplastic lymph nodes in Hodgkin's disease and non-Hodgkin lymphoma—Comparison between tomography and lymphography 491
- Intracytoplasmic immunoglobulins in the differential diagnosis of lymphocytic lymphomas of the B-CLL type and immunocytic lymphomas 527

Prognostic factors, Tumour markers

- Prognostic factors of papillary, follicular and medullary carcinoma of the thyroid gland—Retrospective multivariate analysis of 216 patients with a median follow-up of 11 years 17
- Invasive squamous cell carcinoma of the uterine cervix—VIII—Survival and malignancy grading in patients treated by irradiation in Lund 1969–1970 41
- ³H-thymidine autoradiography and cytophotometric analysis of needle aspirates from human tumours during radiation therapy, endocrine therapy and chemotherapy 117
- Invasive squamous cell carcinoma of the uterine cervix—IX—Construction of a partial index in a histopathologic malignancy grading system 133
- Prognostic factors in stage I and II non-Hodgkin's lymphoma of Waldeyer's ring 153
- Immunodeficiency and prognosis in patients with non-Hodgkin's lymphomas 159
- Serum thymidine kinase as a prognostic marker in Hodgkin's disease 167
- Bone mineral content and estrogen receptors in women with breast tumors 247
- DNA distribution, cytosol estrogen receptors and axillary nodes as prognostic predictors in breast carcinoma 253
- Comparison between flow cytometry and single cell cytophotometry for DNA content analysis of the uterine cervix 337
- Use of formalin fixed, paraffin embedded tumours for estimation of cellular DNA content and S-phase fraction by static cytofluorometry 537

Surgery

- Preoperative irradiation of primarily non-resectable adenocarcinoma of the rectum and rectosigmoid 35
- Breast retraction assessment—Multiple variable analysis of factors responsible for cosmetic retraction in patients treated conservatively for stage I or II breast carcinoma 327
- The effect of surgery, radiation therapy, and combined radiation therapy and chemotherapy on immunocompetence in patients with lung carcinoma 481

Radiation therapy, Clinical radiation biology

- Preoperative irradiation of primarily non-resectable adenocarcinoma of the rectum and rectosigmoid 35

- Invasive squamous cell carcinoma of the uterine cervix—VIII—Survival and malignancy grading in patients treated by irradiation in Lund 1969–1970 41
- Radiation treatment of primary carcinoma of the vagina—Patterns of failures after definitive therapy 51
- Hemangioma of the vertebral column—A report on twenty-three patients with special reference to functional recovery after radiation therapy 129
- Invasive squamous cell carcinoma of the uterine cervix—IX—Construction of a partial index in a histopathologic malignancy grading system 133
- Intracavitary irradiation of carcinoma of the cervix stage IB and II A—A clinical comparison between a remote high dose-rate afterloading system and a low dose-rate manual system 139
- Cohort study of the long-term effect of irradiation for carcinoma of the uterine cervix—Second primary malignancies in the pelvic organs in women irradiated for cervical carcinoma at Radiumhemmet 1914–1965 145
- Radiation dose dependence of the sensitization by oxygen and oxygen mimic sensitizers 209
- Radiation treatment of laryngeal carcinoma with special reference to CRE values 227
- Management of mediastinal compression due to bronchogenic carcinoma 233
- Whole brain irradiation for metastases from lung carcinoma—A clinical investigation 311
- Squamous cell carcinoma of the nasopharynx—An analysis of failure patterns after radiation therapy 315
- A therapeutic approach to early vocal cord carcinoma 321
- Breast retraction assessment—Multiple variable analysis of factors responsible for cosmetic retraction in patients treated conservatively for stage I or II breast carcinoma 327
- Changes in lymphoid cell distribution after intraperitoneal administration of ³²P colloids 331
- Peripheral blood lymphocyte subsets in radiologists exposed to ionizing radiation 415
- Chest irradiation as an attempt to improve the response after induction chemotherapy in small cell lung carcinoma 475
- The effect of surgery, radiation therapy, and combined radiation therapy and chemotherapy on immunocompetence in patients with lung carcinoma 481
- Combined bleomycin treatment and radiation therapy in squamous cell carcinoma of the head and neck region 487
- Radical irradiation of T2 and T3 bladder carcinoma—A retrospective investigation 497
- Quantitative evaluation of spontaneous and radiation-induced polyploidisation processes in human and murine testes 503
- Human blood granulocyte macrophage progenitors (GM-CFU) during extended field radiation therapy 521

Radiation injury

- Lethal acute gamma radiation accident at Kjeller, Norway—Report of a case 61
- Cohort study of the long-term effect of irradiation for

- carcinoma of the uterine cervix—Second primary malignancies in the pelvic organs in women irradiated for cervical carcinoma at Radiumhemmet 1914–1965 145
- Postirradiation hemangiosarcoma of the chest wall—Report of a case 237

Chemotherapy and hormonal therapy

- Recombinant leukocyte A interferon as single agent therapy or in combination with cimetidine in patients with advanced colo-rectal carcinoma—A phase II investigation 25
- Scalp hypothermia in the prevention of chemotherapy-induced alopecia 113
- Blood lymphocyte population 4 to 6 years after adjuvant cyclic chemotherapy for operable breast carcinoma 123
- Totally implanted device for venous access—Experience in tumour patients 173
- Combined transcatheter arterial embolization and regional chemotherapy for locally advanced carcinoma of the breast—A preliminary investigation . . 241
- Chemotherapy in advanced breast carcinoma—Comparison between doxorubicin-cyclophosphamide and cyclophosphamide-methotrexate-5-fluorouracil-vincristine-prednisone 391
- Chest irradiation as an attempt to improve the response after induction chemotherapy in small cell lung carcinoma 475
- The effect of surgery, radiation therapy, and combined radiation therapy and chemotherapy on immunocompetence in patients with lung carcinoma . 481
- Combined bleomycin treatment and radiation therapy in squamous cell carcinoma of the head and neck region 487

Tumours (specific sites)

Digestive system

- Recombinant leukocyte A interferon as single agent therapy or in combination with cimetidine in patients with advanced colo-rectal carcinoma—A phase II investigation 25
- Preoperative irradiation of primarily non-resectable adenocarcinoma of the rectum and rectosigmoid . 35
- Combined bleomycin treatment and radiation therapy in squamous cell carcinoma of the head and neck region 487

Respiratory system

- Radiation treatment of laryngeal carcinoma with special reference to CRE values 227
- Management of mediastinal compression due to bronchogenic carcinoma 233
- Whole brain irradiation for metastases from lung carcinoma—A clinical investigation 311
- Squamous cell carcinoma of the nasopharynx—An analysis of failure patterns after radiation therapy . 315
- A therapeutic approach to early vocal cord carcinoma 321
- Chest irradiation as an attempt to improve the re-

- sponse after induction chemotherapy in small cell lung carcinoma 475
- The effect of surgery, radiation therapy, and combined radiation therapy and chemotherapy on immunocompetence in patients with lung carcinoma . 481
- Combined bleomycin treatment and radiation therapy in squamous cell carcinoma of the head and neck region 487

Breast

- Relation between tumour size and plasma prolactin levels in premenopausal patients with breast carcinoma—A preliminary report 57
- Scalp hypothermia in the prevention of chemotherapy-induced alopecia 113
- Blood lymphocyte population 4 to 6 years after adjuvant cyclic chemotherapy for operable breast carcinoma 123
- Combined transcatheter arterial embolization and regional chemotherapy for locally advanced carcinoma of the breast—A preliminary investigation . . 241
- Bone mineral content and estrogen receptors in women with breast tumors 247
- DNA distribution, cytosol estrogen receptors and axillary nodes as prognostic predictors in breast carcinoma 253
- Breast retraction assessment—Multiple variable analysis of factors responsible for cosmetic retraction in patients treated conservatively for stage I or II breast carcinoma 327
- Validity of certified causes of death in breast carcinoma patients 385
- Chemotherapy in advanced breast carcinoma—Comparison between doxorubicin-cyclophosphamide and cyclophosphamide-methotrexate-5-fluorouracil-vincristine-prednisone 391
- Effects of repeated mammographic screening on breast cancer stage distribution—Results from a randomised study of 92934 women in a Swedish county 465

Kidney and urinary tract

- Radical irradiation of T2 and T3 bladder carcinoma—A retrospective investigation 497

Female genital organs

- Invasive squamous cell carcinoma of the uterine cervix—VIII—Survival and malignancy grading in patients treated by irradiation in Lund 1969–1970 . 41
- Radiation treatment of primary carcinoma of the vagina—Patterns of failures after definitive therapy . 51
- Invasive squamous cell carcinoma of the uterine cervix—IX—Construction of a partial index in a histopathologic malignancy grading system 133
- Intracavitary irradiation of carcinoma of the cervix stage IB and IIA—A clinical comparison between a remote high dose-rate afterloading system and a low dose-rate manual system 139
- Cohort study of the long-term effect of irradiation for carcinoma of the uterine cervix—Second primary malignancies in the pelvic organs in women irradi-

- ated for cervical carcinoma at Radiumhemmet 1914-1965 145
- Comparison between flow cytometry and single cell cytophotometry for DNA content analysis of the uterine cervix 337
- Male genital organs*
- Testicular carcinoma—A curable malignancy 3
- Endocrine organs*
- Prognostic factors of papillary, follicular and medullary carcinoma of the thyroid gland—Retrospective multivariate analysis of 216 patients with a median follow-up of 11 years 17
- Nervous system and sense-organs*
- Whole brain irradiation for metastases from lung carcinoma—A clinical investigation 311
- Haemopoietic, lymphatic and reticuloendothelial systems*
- Prognostic factors in stage I and II non-Hodgkin's lymphoma of Waldeyer's ring 153
- Immunodeficiency and prognosis in patients with non-Hodgkin's lymphomas 159
- Serum thymidine as a prognostic marker in Hodgkin's disease 167
- Radiation sensitivity of human malignant lymphocytes 411
- Detection of neoplastic lymph nodes in Hodgkin's disease and non-Hodgkin lymphoma—Comparison between tomography and lymphography 491
- Intracytoplasmic immunoglobulins in the differential diagnosis of lymphocytic lymphomas of the B-CLL type and immunocytic lymphomas 527
- Bone and soft tissue*
- Investigations of ^{90}Sr in dogs—I—Pathogenesis of radiation-induced bone tumors 95
- Hemangioma of the vertebral column—A report on twenty-three patients with special reference to functional recovery after radiation therapy 129
- Postirradiation hemangiosarcoma of the chest wall—Report of a case 237
- Primary retroperitoneal sarcomas—A review of 36 cases 305
- Miscellaneous tumours*
- ^3H -thymidine autoradiography and cytophotometric analysis of needle aspirates from human tumours during radiation therapy, endocrine therapy and chemotherapy 117
- Radiation physics*
- Dosimetry*
- Selective shielding of a p-Si detector for quality independence 65
- Characteristics of a p-Si detector in high energy electron fields 71
- Electron beam dose planning using Gaussian beams—Energy and spatial scaling with inhomogeneities 75
- Characteristics of a selectively shielded p-Si detector in ^{60}Co and 8 and 16 MV roentgen radiation 205
- Correction for the angular dependence of a detector in electron and photon beams 301
- Variation in the lung inhomogeneity correction factor with beam energy—Clinical implications 407
- The use of computed tomography numbers in dose calculations for radiation therapy 509
- Miscellaneous*
- Accumulation of $^{99}\text{Tc}^{\text{m}}$ -gluconate in daunorubicin-treated neonatal heart cells in culture 177
- Temporary ischaemia of a large bowel segment induced by degradable starch microspheres in man 395
- Book reviews*
- Clinical management of gastrointestinal cancer 383
- Cancer of the prostate 383
- Technological basis of radiation therapy—Practical clinical applications 383
